

# BRIGHTON LAKES – 16<sup>TH</sup> May, 2021

The second game of the Masters Series turned out to be a major disappointment not only because we were down on numbers (13 starters) but also because it took us 4.5 hours to play 14 holes. That was where we walked off the course with darkness and cold descending and when it was obvious we would only get to play one more hole at most before risking being lost and not being able to find our way back to the clubhouse.

Before we hit off a late tee time was pushed back even later to 12:24 (always going to be a problem without daylight saving) but made worse by Mixed Pennants and a full comp field. Many of the comp players didn't finish either and we joined a queue to complain in the Pro Shop when we got back.

General consensus seemed to be that the course was good although pitch marks in the greens were an issue as were the unranked bunkers, but the fairways were quite good. The course is tight with plenty of water and some hidden hazards. It is an iron players course where local knowledge could play a huge part and shot placement very important.

So, play finished at the 14<sup>th</sup> and Ross Nattrass turned in the best individual score, a very respectable 26 points while Tony Donnellan turned in one of his worst. Between all of us we lost a shed-full of golf balls and a return to the course is not on the horizon anytime soon – if ever.

Because of the lateness and the mood, we did not have a presentation and full results were not known until this publication was circulated. All events were calculated after 14 holes and Groups 3 and 4 managed to bring back the survival ball. I have deducted \$5.50 cost of the skins from all the winners and taken that amount from the account of those who did not have a collect.

Scores will still count for the Masters Series but almost certainly will be one of the discarded rounds.

Full results as follows;

Brighton Lakes
